Portfolio: <https://jwilliams1694.github.io/Portfolio-Jimmy-Williams/>

EDUCATION

Rochester Institute of Technology (RIT), Rochester, NY

Expected May 2025

Bachelor of Science (BS) Game Design and Development; Minors: Computer Engineering, Cybersecurity, Math

Dean's List: Spring 2022, Fall 2022, Spring 2023; GPA: 3.8

SKILLS

Programming Languages: C#, C++, C, HTML, CSS, JavaScript, Python, VHDL, ARM Assembly

Operating Systems: MS Windows

Game Engines: Unity, Unreal Engine, MonoGame

Other: Microsoft Office, Slack, Adobe Suite, GitHub, Maya, Trello

PROJECTS

Led multiple complex projects involving programming in Unity, 3D Modeling in Maya, and Web Development with JavaScript, and Linear Algebra

- **Arcaniac:** 5-member group for 10-week project, October-December 2023, Lead programmer, scrum master
 - Created dynamically rendering magic spell system using C# using Unity's built in particle systems.
 - Created enemy AI pathing using Unity's NavMesh system.
 - As a scrum master, I helped assign tasks to group members and set deadlines to assist in production and assisted in setting up and running code reviews, ran GitHub task board to keep group organized.
 - Ensured any code put into production was verified to be working and effective.
- **Peach's Castle from Super Mario 64:** 4-week solo project, November-December 2022
 - 3D modeled castle and textures in Maya, and movement system in Unity.
 - Created all the assets and textures myself and created a navigational environment in unity combining all the assets.
 - Programmed moving elements in the stage to showcase all models created.
- **Test of Wills:** 4-member group for 10-week project, February-April 2022
 - Programmed player and enemy movement using vector math.
 - Provided animation, sprites, music, and sound effects.
 - Gathered the best assets that fit the theme of our game and created animations for background scrolling, player, and enemies.
 - Contributed many miscellaneous tasks to keep the project moving smoothly, like bug fixes and documentation.
- Programmed multiple websites (including *Single Page Website*, *Pokémon API Website*, *Web Project Game*)
 - Made multiple websites across 10 weeks utilizing HTML, CSS, JavaScript, knowledge of API's and Box2d plugin.
 - Created website from scratch to utilize API database using JavaScript.

WORK EXPERIENCE

Tech Management Technician

November 2022 - Present

Rochester Institute of Technology

- Provided one-on-one customer support to set up and configure systems for RIT faculty and students, such as software, hardware, networking connectivity, facilitated training of new employees and troubleshooting

AWARDS

- The National Society of Leadership and Success
- Jackie Robinson Foundation Scholar

May 2022

August 2021 - Present
